REPOT OF BOOKING MOVIE TICKET SYSTEM

Project Description:

In this project, we will be building a chatbot using Watson assistant. This chat should have the following capabilities

- Give the list of movies available
- The Bot should be able to show different show timings
- When a movie is selected the bot should show the availability of tickets and their respective prices.
- The bot should be in a position to book tickets.

Services Used:

1. IBM Watson Assistant
2. Node-Red

Technical Architecture:
